The *Fargo History Project* is proud to bring **Red River Valley Historic Tours** to the Fargo/Moorhead area. This is an NDSU public history initiative that uses mobile technology so residents and visitors can learn about regional history through free roam, driving, and walking tours. Graduate and undergraduate students from Dr. Angela Smith's Fall 2016 Digital History class have developed a broad array of tours available to smart phone users. Red River Valley Historic Tours uses the a mobile tour guide, Pocket Sights. See <https://pocketsights.com> for more information or just download the app.
